KOSMIC KOLOR ® URETHANES

KOSMIC KOLOR URETHANE KANDY'S (UK SERIES) 'The True Kandy effect – often imitated but never duplicated'

Watch this color explode off the panel taking your project to a dramatic new level. Being translucent enables limitless color possibilities – magnifying any base coat or lake that it is placed over. Our Kosmic Kolor Kandy is incomparable to any other Kandy on the market – no one can match our color intensity, durability, longevity, and ease of application!

KANDY KONCENTRATES

KANDY KONCENTRATES (KK SERIES)

'For those that just can't get enough color'

This specially designed product is for intensifying or changing a color. Or making a low solid kandy using SG100. For multiple artwork layouts or airbrush projects also. Strengthen Kandy's for faster coverage on chassis, undercarriage, door jambs, engine bays, etc. A great all around product to achieve that one of a kind look.

ARTISTIC BASES KOSMIC KROME ® (MC SERIES) 'Hard hitting metal look'

The Kosmic Krome effect has evolved from the development of revolutionary aluminum flake chemistry. The final result can be a beautiful and interesting finish that when combined with other HOK products transforms into an entirely different realm. rushed aluminum effect can be applied to create a real metal finish - even on wood or plastic! Ideal for detailing of interior parts and available in 5 metal color effects.

MARBLIZER [®] (MB SERIES)

'Creating out of this world finish with ease'

Marblizer Artistic Bases offer you an exciting new paint finish – adding incredible new visual depths to your project. This unique coating can create a wide range of effects – from a deep marble grain to snakeskin appearance. Available in 6 versatile colors – however can be over coated with Kandy's to create any color you wish with an intensely powerful effect. Use MB00 Neutral Marblizer to create your own Marblizer effect by adding any of our dry pearls including Kameleon.

COAST to COAS COMPLIANT

SHIMRIN [®] UNIVERSAL BASE SOLID GRAPHIC KOLORS (SG SERIES)

'The cleanest most radiant colors available!'

Made using the brightest, cleanest organic pigments available. Used for overall paint jobs or as a base for Pearls, Flakes etc. May be blended for varied h ues. Also great for artwork and airbrush.

DESIGNER PEARLS (PBC SERIES) 'Crisp clean pearls from any angle'

Designer Pearls come in the widest palette on the market - over 40 pearl colors Color possibilities become endless, as Designer Pearls may be intermixed, and can also be blended with other Shimrins, such as KBC, BC, FBC and NE for added creativity. Dry Pearls can further increase the palette. As with all Shimrins products the low film build makes this and excellent choice for complete paint jobs, artwork and air

GLAMOUR (BC SERIES) & FINE METALLIC (FBC SERIES) 'Versatile platform product that creates a world of endless color'

2 beautiful metallics in coarse (BC) and fine (FBC) out standing as the final color or as a base for our kandys (See color card and view each kandy over all 12 bases) BC and FBC can be intermixed for that one off kustom job. Also compatible with Neons, Designer Pearls or any dry Pearls, including Ice Pearls II. The kolor wheel is huge, creativity is in your hands.

KANDY BASECOATS (KBC SERIES)

'Outstanding color at every stage of your project!

This is a specially developed basecoat that mimics the ever popular Kandy finish. Easy to use with a low film build, makes this basecoat suitable for street machines of all kinds, especially being touch up friendly. Mixes beautifully with the PBC's offering many exciting combinations. Easiest kandy to spray bar none!

METAJULS METALLIC BASES (MBC SERIES) 'Exceptional sparkle & brightness'

Shimrin Metajuls Metallic Bases are our most brilliant metallic basecoats that feature exceptional sparkle & brightness. You haven't seen sparkle until you get your hands on Metajuls Metallics! Used alone they are spectacular, but when teamed with Kandys – they really become

KAMELEON [®] KOLORS (KF SERIES 'Revolutionary head-turner'

Cameleon Kolor is a revolutionary base coat that has advanced the world of color. Kameleon will actually change color depending on what angle if is viewed. Rounded, curved surfaces & sharp angles will be highlighted by this unique formulation.

NEONS (NE SERIES)

'Eye-grabbing graphic impact' Shimrin Neons are designed for hard-hitting high visual impact. Perfect for highlights on race cars, boats and signage where eye-catching intensity is craved. Use with caution, will fade with long term exposure to light.

STRIPING & LETTERING ENAMEL (U SERIES 'For a truly unique custom job'

Designed for striping, lettering & airbrush artwork. The high pigment concentration means you can complete most strokes with one pass – single application! Low film build for minimal edging. Designed to be clear coated. A catalyst is available if you do not wish to clear coat. Available in 36 accent colors to highlight your project.

Since 1956, House of Kolor has been designed for use as a complete kustom system. From Primers to Klear Koat, the beauty and longevity of a House of Kolor paint job comes from using every component as a complete system. House of Kolor recommends saving receipts or invoices from your paint order, and recording the batch code on the receipt for future reference. This will help insure you get the right mix, should you need to touch-up your paint job.

(KU151)

REDUCERS (RU310 - RU313, RU300 LV Cool Weather, RU301 LV Warm Weather)

Our Kosmic Reducers - RU310 Fast Dry, RU311 Medium Dry, RU312 Slow Dry, RU313 Very Slow Dry, RU300 LV Cool Weather, and RU301 LV Warm Weather Reducers, are made with high grade ingredients specific to the House of Kolor system. Use no other!

RETARDER (RU315)

AX02 Kosmic Kicker is an accelerator for all House of Kolor Urethane products. AX02 can be used to reduce dry times on small parts that need to be handled sooner to increase production. A good example of this products usefulness would be for a motorcycle project where the coats of Kandy and Klear could be accelerated for quicker sanding and addition of artwork later that day. AX02 is not a cure all for a cold shop and should not be used on larger projects such as a complete car.

ADHERETO ® (APO1) APO1 is designed to use when top coating ABS, TPO (Thermoplastic Polypropylene), Polypropylene/ elastomer blends, other plastics, aluminum, steel, brass and other metals.

HI-HEAT BLACK (HH04) flaking or discoloration.

FLATTENING AGENT (FA01)

KUSTOM CATALYST, REDUCERS & THINNERS CATALYSTS (KU152 & KU100), EXEMPT CATALYST (KU150) & EXEMPT FLOW CATALYST

House of Kolor offers a full line of top quality catalysts designed to work with in our product line. Highest reactivity for high build coatings.

Designed for the Kosmic Kolor Urethane system to retard dry time in situations where this is deemed necessary, such as force drying.

SPECIALTY PRODUCTS

NEW RELEASE - KOSMIC KICKER (AX02)

KRATOR ELIMINATOR (KE170)

At Last a fisheye eliminator that does not need to be used in every coat. Use KE170 to correct fisheye or crater defects. Works with Lacquer, urethane, polyurethane, acrylic urethane, acrylic enamel, etc. A must have for your paint shop. Do individual testing on other company's products. May not correct major silicone contamination. In that case, use a silicone oil which will be required throughout the job.

Hi-Heat Black is a fast-covering, great-looking, semi-gloss jet black finish that will endure 1400° F without

Flattening Agent reduces the gloss of our urethane and acrylic urethane enamel topcoats and Klears. For chassis and under carriage parts and especially for flattening any topcoat for the rat rod look so popular

Unequaled Performance... Uncompromised Quality... Undisputed Market Leader

PREPARATION & CLEANING

- WAX & GREASE REMOVER (KC10)

- Removes sanding residue as well as dirt and light contaminants.

 - Designed for use after KC10 and after sanding. Excellent for cleanup on basecoats without damaging the base.

KUSTOM PRIMERS & SEALERS NEW RELEASE - SILVER SEALER (SSO1)

SS01 House of Kolor Silver Sealer is the only silver sealer in the automotive paint business. Considered a must unde all metallic based colors for easy to spray even coverage of metallic basecoats. Fewer topcoats will be necessary for additional savings. Built from a Polyurethane resin system to provide tenacious adhesion and long term color hold out. Engineered to work over House of Kolor's new KD3000 Direct to Substrate colored primer system, KP, KS, KD systems, and OEM finishes. SS01 can also be custom tinted with up to 10% of Kandy Koncentrate for an even closer color match under Shimrin2 and original Shimrin basecoats and Kandy basecoats.

ADDITIONAL KUSTOM PRIMERS & SEALERS KWIKURE 2-PART EPOXY PRIMER/SURFACER (KP2CF- PARTS A & B) KO-SEAL[®] II PRIMER SEALER (KS SERIES)

KOSMIC CLEARS

NEW RELEASE - KOSMIC URETHANE SHOW KLEAR (USCO1) Simply stated, USC01 Kosmic Urethane Show Klear is the most robust klear House of Kolor has ever produced. Usir state of the art polymer technology, we have developed a clear with excellent chemical, fuel, and water resistance, as well as the highest UV protection in the industry. USC01 also offers users excellent flow out, aloss and D.O.I. (Distinctness Of Image) after 48 hours. This klear is identified as a medium solids product (41%). It can be used on al size vehicles from large trucks to compact cars, resulting in the show-ready finish that House of Kolor users crave. We have also created the new AX02 Kosmic Kicker accelerator for use on motorcycles and small parts, resulting in higher production in your shop. USC01 Kosmic Urethane Show Klear is the ideal clear coat for you and your pursuit of excellence. USC01 Kosmic Show Klear meets all VOC rules and regulations, Coast to Coast, including California.

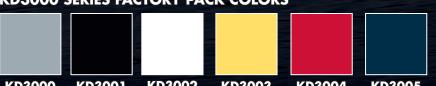

ADDITIONAL KOSMIC CLEARS KOSMIC ACRYLIC URETHANE KLEAR (UC35) KOSMIC POLYURETHANE FLO-KLEAR (UFC35)

NTERCOATS NEW RELEASE - INTERCOAT (S2-SG100)

S2-SG100 Intercoat is an important tool for the custom painter. It is designed to be applied over a given base color, prior to taped art work or air brush art. This allows for easy removal of mis-tapes or air brush errors without damage to base color. We recommend KC20 as the only clean up solvent. The intercoat is also applied over art work to preserve blending and fogging of various colors before applying kandy or clear topcoats. S2-SG100 is a safety layer, allowing you to pause and continue your project later. S2-SG100 is not a build up clear or a top coat clear. Limit mplicity in design and application - begin your kandy job using the low solid mix for initial 2-3 coats. The low applied coats to 4, however, if used as a carrier for base coat kandys. When used as a carrier for pearls or flakes solid mixture will greatly reduce or eliminate kandy blotching, streaking, and general application errors. Finish when reduction from standard 2:1 ages to 1:1, more coats are acceptable. S2-SG100 is also used to reduce streng your kandy job by applying the medium solid mixture to achieve desired depth and color strength. Kandys must of base coats for blending colors or for checking touch ups before top coat clears are applied. Considered a must over Marblizer before kandy or clear to guarantee adhesion. S2-SG100 Intercoat, as you can see, is an important be clearcoated with USCO1 Kosmic Urethane Show Klear or any Kosmic Urethane Klear. workhorse for the painter! \$2-SG100 is coast to coast VOC compliant, KLEAR COAT - USCO1 KOSMIC URETHANE SHOW KLEAR including California.

KD3000 SERIES FACTORY PACK COLORS

Removes arease, wax, silicone, adhesives, tar, tree sap, insects and dirt.

Quick flashing solvent designed for use over existing finishes and bare metal before sanding and body work.

• Eliminates static electricity that occurs during the working of substrates.

NEW RELEASE - URETHANE KANDY KARRIER (UKKO1)

UKK01 Urethane Kandy Karrier takes House of Kolor into the 21st century with state of the art polymer technology to produce a product that remains a solvent base system and meets the VOC's requirements coast to coast (includin california). UKK01 can be applied as a medium sólids Kandy (34% solids) or as a low solids Kandy (29% solids). Simply reduce and Catalyze the UKK01 and then add 2-4 ounces of any of House of Kolor's KK Kandy Koncentrates to a ready to spray quart of UKK01 Urethane Kandy Karrier to produce the same vibrant Kandy Kolors as our current UK Kandv's.

KWIK-MIX REFERENCE GUIDE
